

LIFE Huddle: *Getting together to talk through issues of life*

Understanding your beginning will empower your ending

“What you think about God is the most important thing about you”

A.W. Tozer

It structures how you think, act and the life choices you make. It affects the choices you make based on if you think you have an Eternity to pay for your decisions. It is a far reaching decision that too many of us take lightly.

“But what about you, Jesus said, who do you say that I am”

Matthew 16:15

What society says about Jesus doesn't matter. What your background says about Jesus doesn't matter. What matters is what you say about Jesus.

Defining God correctly will give you the direction you need for a long successful life.

Bringing clarity to the right view of God will bring you freedom not confinement. Giving Him right access into your life will allow you to be the most you were created to be.

P2R (Point 2 Remember): *Having the right grasp of your spirituality will empower your goals in life*
