Dear Coach:

Enclosed you'll find the notes and DVDs from our clinic this past August. On behalf of our staff, at the University of Florida, I want to thank you for your attendance and participation. We felt like it was a tremendously successful event. Also attached you'll find a contact information sheet with the information of the attendees. These notes were compiled by Florida Basketball Graduate Manager Matt Wise-mfwise11@gmail.com.

We wish you the best of luck this upcoming season, and if there's ever anything we can be of assistance with please do not hesitate to reach out. Thanks again for making this a successful event, and we look forward to seeing you next year.

Sincerely,

Oliver Winterbone

Zone Quick Hitters

- Why zone?
 - Foul game (force jumpers)
 - Don't want to guard you
 - Don't like matchups
- Goals
 - Easy baskets
 - Rebound
 - Foul
 - Inbounds plays
- Every game vs. zone
 - Push the ball and expl__
 - Goal: flatten zone out at baseline
- Throw baseline
 - Big to block but not below
 - See Diagram
- "Mullet" in zone – mullet – worthless fish – don't bite, not good to eat = worthless defender on the backside of the zone
 - See Diagram
- "Inside X"
 - Bigs X on catch
 - Top foot pin and seal wings of zone
 - Top guys flatten out

- Have something effective vs. 1-3-1
 - Dave Odom zone offense
- Vs. matchup
 - Wing screen and roll
 - Run man-man offense
 - Motion and movement

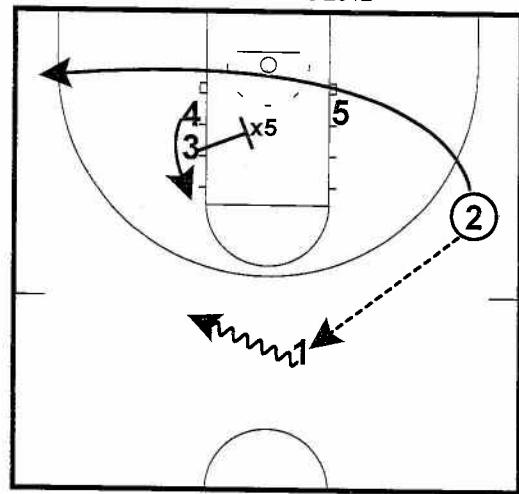

- They want you to run zone offense and sets
 - Have a second practice where you work on:
- They want you to run zone defense and sets
 - Zone quick hitters
 - Specials
 - Side out of bounds quick hitters
 - Zone underneath quick hitters

- What coaching is all about.. What is our purpose in coaching
- “The Lord sometimes has a better plan than we do”
- Chuck Knoll - such an impact on his life
- “Football is a great game and your profession, but it is not your life.. Want to help you do your life’s work.”
- “Champions don’t do extraordinary things. Champions do ordinary things better than everyone else.”
- 2 pieces of advice from Coach Knoll
 - Always talked about the process
 - Your job is to help our players play better”
- Learned from Bible can learn
 - Never take a job based on money, title, or position
 - Have to figure out a way to reach everyone
 - Take job based on who you work for, with, and how much you
 - When your plans aren’t met, it’s the Lord taking you in another direction
 - Got to Minn. Chapel
- Verses: Jeremiah 29 – “I know the plans I have for you says The Lord...”
- Learned from Bible can learn
 - Who got you going in the right direction?
 - Who got you going under his watch
 - Change of view of his job
 - Responsibility to guys under his watch
 - How to live, how his faith was going to be involved
 - Don’t put the results as the end all, but focus on the process
 - You’re going to coach a lot of people and you’re never going to know what impact you’ll have on them. They may go on to impact hundreds of people you’ll never meet.”
 - “You’re going to worry about the process, not the result and 2) Jeremiah verse -
 - Put some things in the Lord’s hands
 - Q - How did you handle the perception of soft-spoken equalizing soft?
 - A - So much of profession is perception-oriented
 - If someone doesn’t give you a chance, cannot worry about it
 - Advice doesn’t always sink in immediately
 - Looking at players as asset vs. as a person
 - Play to win?”

- Players – Play our best and to do what we want to do

The One Year Uncommon Life Daily Challenge – Tony Dungy

Maximizing Your Impact: Purpose – Scott Whitaker

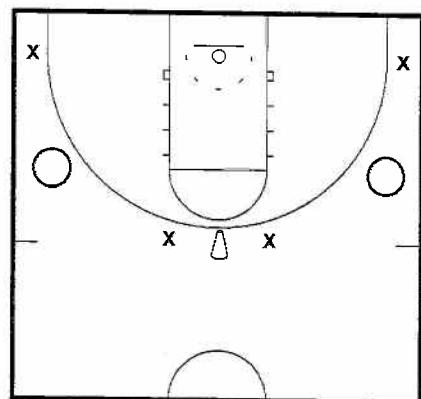

- These two books were generously donated to the clinic attendees by Impact for Living

- Right spot right time
- Cut hard
- All spacing
- How do you guard this stuff?
- Matchup – hide lack of athleticism, control game
- 4 concepts to bother the matchup
- Screen your own man – vs. matchup or switching 1-5
- Misdirection
- Zipper action
- Press, Pressure, shrink
- Ball side cuts
- Must honor ball side cuts
- Goal of matchup – take “unpracticed” shot
- Switching defensively – “Talk it, touch it, switch it”

Jeff Reynolds

Jimmy Tillette

- “Extremes of offense” – Princeton
- “Hard cuts” – “cut harder”
 - Not quickness of players but speed of offense
 - Must change speeds of offense
- Least regimented offense
 - Have to be a grind it out offensive team
- Reduce offense to 2 components – vision and action
 - Narrow vision, wide action
- Near feel and far look to be effective with the ball
- Fight for a dribble angle
- Offense must know difference between simultaneous and sequential
- Spots offensively, so people know where to be
- Speed of offense, not quickness of player
- “Does the ball need help or does it need space?”
- Extremes of offense – no focus
- Defense:
 - Pressure ball
 - Pressure cutter – take away speed of offense
 - Pressure dribble
 - Switching
 - Selective trapping
 - Delaying or changing defenses
- 2 cuts – stationary to sprint or sprint to stationary
 - Nothing else is acceptable
 - Get through bumps/holds
- SOS – “shit out of sureness”
 - Must get to sureness with urgency
 - Get to spots, regain flow

- Prepare – 1 or 2 things
 - Try to take away everything, you take away nothing
 - Can't take away 3's and basket cuts
 - Change defenses

John Adams

- National Coordinator of Officials
- Different styles of play
 - Different styles is the beauty of the game
 - Different styles of officiating are not
- Officiating standard – level of predictability
- Started working on “absolutes”
- Constantly reviewing illegal plays
- Recognizing and reacting
 - More of a science and less of an art
- NCAA basketball tournament 850 mil/yr
 - We want our tournament to go well
- Adams – “I have nothing to do with officiating during the year”
 - NCAA – Federal government
 - Leagues – State governments
 - Different leagues want certain types of officiating
- Goal – seamless transition to NCAA tournament
- 850 independent contractors (refs in NCAA)
- 2008-2011 – Plays that officials didn’t get right
 - Lagging behind pace of play
 - Out of position
- 92% of all whistles – Correct
- 67% of block/charge calls – Correct
- 60% of non whistles – Correct
- 88% overall – Correct
- jwasports1@aol.com
- Most important criteria in evaluating officials is getting the plays right, then:
 - Be an adequate communicator
 - Manage major moments

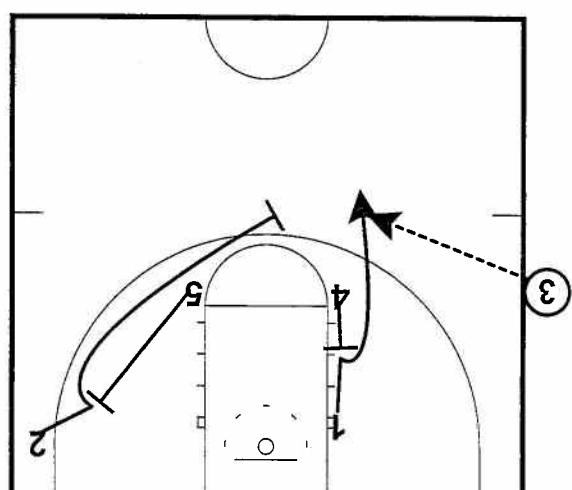

- Pride in guarding ball screens
- Side ball screen with weak side duck in
- Hedge and go over
- Show and go over
- Switching
- Trapping
- Squeezing
- Doweling
- Hedge - ahead of the screener, foot to foot, one slide
- Roll and fill - hedge and switch with bigs - "Rush Man"
- Only want one guy helping on the roll
- Point and talk - "Take mine" on roll and fill
- Switch out and switch under
- "Switch the gap" - stay in gap to give help to drive by 1 on X4
- No rush man on switch
- Hedge - turn him away from basket - maintain ball pressure
- X out on flight of the pass
- "Error on the side of aggressiveness"
- Sprint into ball screen - be ahead of the screener
- Foot to foot - don't get split
- Not concerned with big catching on the move with back to the basket

Erik Spoelstra

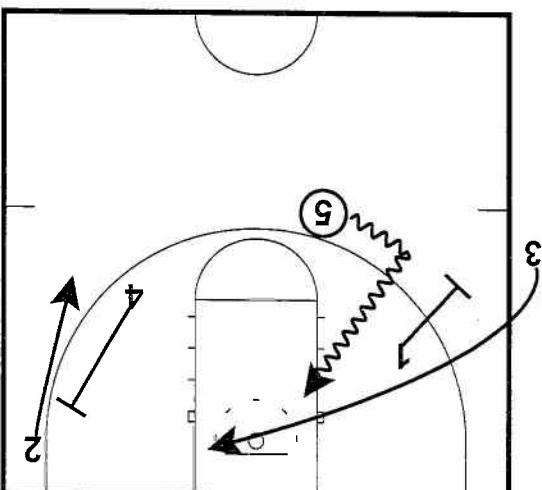

- Foley on Billy D – “Just be normal”
 - Bad karma to take yourself too seriously
 - Scout your own team
 - What do they not want you to see?
 - Dig deeper into what works
 - Protective defense
 - Always what they've done
 - Pace of game = slow
 - Bottom 5 in league in points off TO's
 - Forced him to change his lens
 - Core values – together, though, trust
 - We're all peers in this – all struggling, all seeking
 - Stan Van Gundy and Pat Riley – incredibly detailed
 - “I've lost every possible way you can imagine up 3”
 - D Wade – he gets rebound, he's the guy late game – no timeout
 - Try to get a cheap one – if not, timeout
 - 1st case – have to foul up 3 – easy to foul
 - There are some situations that we don't foul
 - D Wade – only guy that is allowed to intentionally foul
 - D Wade guards the ball and takes away every open cut
-
- Importance of time and score
 - What exactly are we doing on situation
 - “I don't believe in elephants in the room” – has created an honesty
 - Importance of taking the sword
 - Everything is together
 - Don't allow separation, gurus

- See Diagrams for Downing Actions
- Transition D
 - High volume 3's – gets back
 - PG goes to glass, then takes the outlet
 - PG sprints to ball level if it comes on to someone else
 - If PG belly cuts, you cut off his angle
 - Work on this in dry offense
 - Transition more important than rebounding
- “Blow up a screen”
 - Hit him as you get hit by screen
- Baseline guy – shoot gap at last minute
- Vs. Matchup Zone

Guarding specific actions

- Cross screen/down screen
 - Hit his hand, feet below – bump the cutter
 - Get in the way of the screener
 - X out on the backside
 - Or, hold up path and go ball side
- Search-stagger
 - Wall post player or “Gold” – Front
 - Switch out to deny
 - “Jump to ball, get small”
 - 90% of people who run search-stagger don’t throw it in
 - So front the post
- $\frac{3}{4}$ front on slice/stagger/stagger
- Nobody runs off screens free
- Never a free shot – Red to switch in emergencies
 - Guy guarding passer, retreat to the pass
- Screens – bump screen to throw off timing
 - Get to top side of screen and ride the guy off screen
 - Contact at point of screen
- Wide pin down – gives his guy the option
- 2 reasons why his teams are good defensively
 - Will play guys that defend that can’t score
 - Take out good player for defensive mistakes

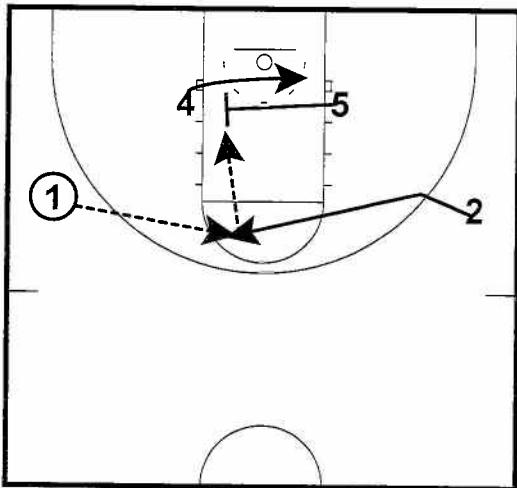

- Not a motion guy a fundamental guy
- Drill and drill footwork and fundamentals
- Want guys who are smart and fun to be around
- Motion offense wrinkles
- “Midget series”
- Wинг away from big on opposite block sets cross screen
- Creates separation for the “midget guard”
- Key to ball screen – arrive at the screen without your defender
- “Hoop tie” – dribble into the channel, quick stop, reverse pivot, backdoor
- See Diagram
- High ball screen twist
- Away block-block screen, high post flash, high low pass to the screener
- See Diagram
- Screen coupling
- Back screen/pin screen
- See Diagram
- Worst feelling – break down your man and your teammate doesn’t move
- Dribble at you – space and chase
- Dribble away from you – crack
- Fill in right behind the driver
- Baseline drive – drift opposite corner
- Big goes to the dot and crack guy fills behind
- “Naked post” – open wing – big pins in for guard to fill opening
- Championship behavior – practiced every day
- When a player hits the floor – every player sprits over to pick them up
- Charge – everyone in the program stands and applauds
- Huddle before the other team on every FT and out of bounds
- First team to the bench during TO – first to return to the floor

Shoot Around

- Jackson – Sharp and on edge with schedule, etc.
- Greer – Let them stay up late when travelling East on West coast time
- Leitao – What you don't do with your body, you must do with your mind – verbal
- Pelphrey – Accuse us of working too hard rather than not working hard enough
- Saunders – Comfort zone – ritual
 - Get guys out of bed – reconfirm what we're trying to do
 - Pat Riley 2.5 hour shoot arounds
- Gunning – McHale – positive person, not spending 50 minutes about how they'll beat us, but 50 minutes on how we'll kick their ass

Pelphrey – Summer... too much like practice?

- Focused this summer on getting bigger, stronger, faster
- More film, more walk through
- Plant seeds now that we'll water later
- Shyatt – We'd be missing the boat if we don't spend quality time with our guys
- 2 hour workout-Skill work, 4 man, Team

Best Scorer Worst Defender

- Pelphrey – “He's got to try”
- Leitao – Scoring takes a lot of energy – need to consider the energy it takes to be great offensively
- Saunders – “The great ones do both”
 - Doesn't mean you can't be a team defender
 - Players have to become their own niche
- Gunning – Lots of defense is a choice
- Brownell – Figure out defensive rules for guys that aren't as good defensively
 - We always think of rules as offense
- Leitao – Are you better than your problems?
- Floyd – Can't be afraid to coach a gamebreaker
 - Great players are often strong personalities – lots of them are begging for strength
- Pelphrey – “When do we let one go?” – hardest question
 - As an assistant – try to head it off before it gets to the head coach
- Floyd – Address guys individually vs. team – resonates more
- Painter – “A sack of shit rarely loses its smell”
 - By saving one kid, you could also dog a lot of guys that do everything you say

- Mental toughness cannot win you a championship, but can lose you a championship
- Pressure - understanding expectations, internal and external - confidence
 - Grows in any gap that exists between expectations and confidence
 - Answer - Drop expectations without expediting any less of the athlete
 - How?
 - VCU - confidence is greater than expectations
 - Pressure kills fine motor skills and motivation
 - Crush and ignore external expectations
 - What about internal expectations?
 - Expectations go sky high when they think about achievements,
 - Minefield mentality
 - Choose direction
 - Then execute each step
 - Every basketball game involves our mind being in one of 3 time zones
 - Past, present, future
 - How do we stay in the present?
 - An absence of one or more of 4 Cs of peak performance
 - What is choking?
 - Why athletes check out of the present?
 - Memory is associated with emotion
 - Good memory = good motion
 - Bad memory = bad motion
 - Memory is associated with emotion
 - Past - mistakes - carry those mistakes
 - Choking
 - Impact of major mistake can haunt us
 - Commitment
 - Concentration
 - Confidence
 - Focus
 - Commitment
 - How do you win - focus on "what's important now"

 - Every athlete that gain poise, confidence, relaxation from adversity
 - Athletes that gain poise, less confidence, less relaxation
 - Less poise, less confidence, less relaxation
 - How do you FF?
 - Every athlete - 2 categories mistakes
 - Great athletes aren't perfect, but they are near perfect in their response to mistakes
 - Mental acknowledgement of mistakes

- Must use 2 lenses
 - In bleachers (outside-in)
 - Lens in the moment (inside-out)
- Acting out on mistakes – ego preservation, vulnerability
- Best players implement self-talk
- Left side of the brain – analytical, critical
- Right side of the brain – creative, imagination
- Occupy mind right up until point of execution
- Every player has a line in the sand
- What were the emotions of our players during their best games of their careers

The clutch response to stress

AGGRESSIVE-POSE... Your Vaisan

Two extremes can be: Under-aggressive, Over-aggressive (< timing, decision making, skills) How Olympians get there and stay there... the INTERNAL thamostat + LOCKER VS. Thermometer (the first is proactive, the second is reactive)

But beware: athletes typically take baby steps past their HYPE = hard to recognize

The clutch response to stress

The clutch - a small level of stress is useful but KNOW YOUR NUMBER! Situations in life + Sports... 4 things occur

Good News: BRAIN controls this... thoughts... feelings... actions

Treat leads to Fight or Flight Reaction

The clutch response to stress

The Balance Back - Mistakes & the 3 F's

All athletes divided into two groups: Sharey Swimmers type vs. everyone else Great athletes are not great bc they are perfect...
1) Flush it... Acknowledge disappointment but be kind + play game body language
2) Fix it... See it (inside out), L side vs R side + OCUPY MIND
3) Forget it... Hear it (go to scenario)

Doubts are normal... like there's at door... (Red light to Green light... stopwatch = touchy)
Bouncing back from bad games... same 3 F's... the Phil Approach... Tiger HAD it Remember never outperform self-belief system... THE 17 STEPS & MTR

Gives extreme Confidence + OCCUPIES mind.... Bansister - self-belief / confidence

The Balance Back - Mistakes & the 3 F's

What will you do to STAY IN THE PRESENT?

(= no thoughts of past - mistakes, or future - ramifications of win/lose - WIN)

Destinations is important... but stay in moment

Playoffs/Pressure = Warfare and MINEFIELD...

Controlling the things that typically pull us out of the present (DO MORE than say, stay in present)

1. Pulling us toward the past - packing mentality = ago save vs. correct def of choking (3 outcomes)

2. Pulling us toward the past - key mistakes... the sun-reining burn... emotions & memory

Great eg = Cal Tech study on choking (what happens when you focus on outcome)

What will you do to STAY IN THE PRESENT?

Playoffs/Pressure = Warfare and MINEFIELD...

Excelling under Pressure

Mental Toughness & Pressure

A LACK of mental toughness is guaranteed to cost us a championship
Particularly under Pressure: But void between what we know & what we do...
Tradition (resistance training), Practices = same thing, Received weaknesses + what do we do?
Challenging the model... Bird, Jordan, Tiger & Bolt

- 1. THE ENFORCEMENT ENVIRONMENT**
- NCAA ENFORCEMENT STAFF
- Enforcement Staff now very aggressive in developing independent information re potential NCAA violations
 - Enforcement Staff basically doubled in size to roughly sixty full-time people in last few years
 - 访校次数增加：从学校未知到如今更可能从社交媒体、数据库、先前调查、第三方调查者、传统领导者（自报告、设计不良的球员、家庭成员、前教练、前教练）处获取信息
 - 校园访问：执法部门现在更可能从学校未知处获取信息，而不太可能从学校处获取
 - 重大违规案件自2011年以来已有一个显著的第三方当事人成分
 - » 南卡罗来纳、UNC、俄亥俄州、俄克拉荷马、Georgia Tech、康涅狄格等大学
 - » 其他包括迈阿密、UCF
 - » 其他正在审查的大学包括：UConn、UCLA、UCLA、UCLA
 - 第三方当事人=

- × multiple players
- » volume of communications with coaches (esp. return calls/texts)
- » communications re multiple kids
- » kids in different geographical areas
- » no family or coach-player relationship
- » relationship starts after 6th grade
- » presence at recruiting evaluations
- » presence on UOVs and OVs
- » game tickets
- » program access
- » moves to community when kid enrolls
- » funding of "foundations" – do these people have "real jobs"
- if NCAA sees some connection, it presumes the worst; "third party must be improperly assisting recruiting"
 - » coaches must be prepared to explain legitimacy of contacts w/ these groups; and the legitimacy of their contacts w/ kids

2. unofficial campus visits

- Enforcement Staff looking at
 - » who comes
 - » who pays
 - » geography
 - » number of visits by kids and coaches/mentors

3. summer issues

- Enforcement Staff looking at
 - » period between regular academic schedule and summer school
 - » housing, local transport – "coach arranging," even though no \$ from coach (see, Boise State; Radford)
 - » international PSAs; JUCOs finishing credits nearby or on-line

4. academic fraud

- area of media interest – See, UNC
- Bylaw 10.1-(b) is very broad
 - » can be even limited assistance on work for credit
 - » "any staff involvement"

5. "investigating the investigation"

- 11 of 18 non-administrative cases resulted in UEC findings vs coaching staff members
 - » misleading testimony

- replacing current definition of major and secondary violations with “four-tier” approach
 - also have aggravating and mitigating factors
 - list of aggravating factors = longer (and more likely) than mitigating factors
 - significant increase in penalties
 - penalties from “six course menu”
- (II): significantly increased penalties
 - » recruiting limits (more severe)
 - » scholarship limits (more severe)
 - » financial penalties (post-season claw-backs)
 - » competition limits (post-season bans)

- three important changes to Bylaw 19 coming in 8/2013
 - » already see impact in more aggressive Enforcement Staff charges vs coaches and greater penalties vs coaches and schools

2. Enforcement Group -

- need to know more; but beware –
 - » rules should support core values; not dictate resource allocation
 - » have more “underlying concepts” and fewer “dos and don’ts”
 - » problem = every rule in book because some membership group wanted it
 - » Q: Who is going to judge compliance with “core values” and “concepts”?
 - » A: Same group – Enforcement Staff.
 - » SO: be sure school administrators have approved decisions
- good goal = revise NCA Manual to reduce the volume of unenforceable and inconsequential rules

1. Rules Group -

- ### TWO KEY PRESIDENTIAL WORKING GROUPS
- Enforcement Staff strategy -
 - » Tennessee, Ohio St, Radford
 - » in several cases, the coaches’ underlying violations were clearly secondary
 - » not maintaining investigation confidentiality
 - » look at post-interview phone and e-mail records
 - » ask others if talked to coach – particularly PSAs, SAs, parents

- » show cause orders on coaches with coaching suspensions
- » probation (longer and with more requirements)
- (III): much more emphasis on the head coach's responsibility and penalties
- “For level I and II violations, Bylaw 11.1.2.1 (Responsibility of Head Coach) is the centerpiece of the working groups’ recommendations.”
 - » essentially “strict liability” on head coach whenever a violation happens
- penalties = significant suspensions for coaches
 - » from games and other team activities during suspension period
 - » could be over multiple years of a show-cause order

Sever Agg		50-100%	5-10 years
Severe	Sig Agg	30-50%	2-5 years
Severe Mit	Sig	0-30%	1-2 years
	Sig Mit	0-10%	0-1 years

- overcome presumption by showing what did to promote and monitor
 - » likely NOT going to prevent finding
 - » instead looking to reduce penalty
 - × by lowering tier (via mitigating factors)
 - × by justifying lower range of penalties wi/ a tier

II. THE NCAA INVESTIGATION PROCESS

- in a major NCAA investigation...
 - » time
 - » energy
 - » money
 - » media
 - » distraction
 - » impact on recruiting
 - » job in some jeopardy – no matter success

1. Notice of Inquiry

- you are on your own; school can't help you
- school's lawyers are NOT your lawyers

2. investigation phase – NOI through NOA

- first question = participate or not
- interview preparation and the interview

- hearing preparation and hearing
 - » keep emotions in check
 - » COI = tough questions
 - » coach is „on an island“ in the hearing room
 - » anticipate getting attacked from multiple directions
 - » may take place during your season; but need to prepare
 - hearing preparation and hearing
- draft a supplemental response if needed
- pre-hearing conference with enforcement staff
- analyze the responses of other parties and the Enforcement Staff's Case Summary
 - » likely to be „false and misleading“ info in case summary
- draft a response to the NOA
- conduct additional investigation; with or without NCA and school
- review dozens of interviews and thousands of pages of documents
- first question = is summary disposition process possible
 - » coach prohibited from publicly responding
 - » worse under new approach that will include „evidence“ in NOA
 - » media and public presume „allegations“ are „findings“
 - word of investigation will get to the media
- 3. processing phase – NOA through COI hearing
 - communication with current employing school
 - communication with Enforcement Staff to shape NOA
 - NCA investigating the investigation
 - NCA investigating the investigation
 - » „fishing expeditions“
 - » ask for personal phone, e-mail, internet, bank, travel records
 - » NCA will get from school without your knowledge
 - document requests
- accusatory statements disguised as questions
 - × personal information; repeated questions; ask questions, then show documents;
 - × multiple long interviews
 - » the interview(s)
 - » no prior opportunity to review documents
 - » no specific notice of subjects

- continued communication with current employing school
- the processing phase is very time and money consuming

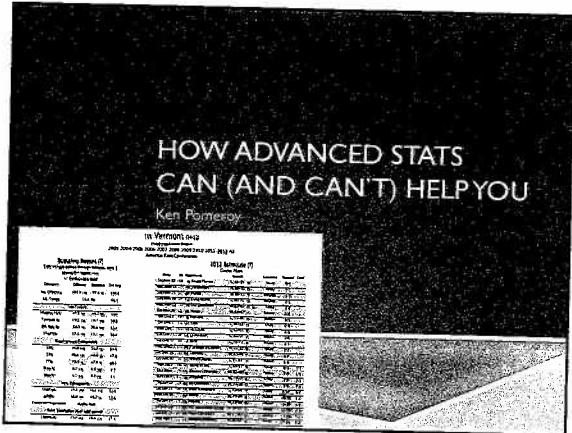

4. post-hearing phase

- result from hearing
 - » usually takes about three months
 - » virtually no advanced notice
- immediate media and employment issues
- possible appeal
 - » postpones implementation of penalties
 - » approximately six month process
 - » time, effort, and money
 - » limited grounds; success unlikely; can “win battle and lose war”
- serious follow-on obstacles
 - » restrictive terms at current school
 - » effect on recruiting...
 - » impediment to subsequent jobs

III. WHAT COACHES CAN DO TO MANAGE RISKS AND MITIGATE DAMAGES

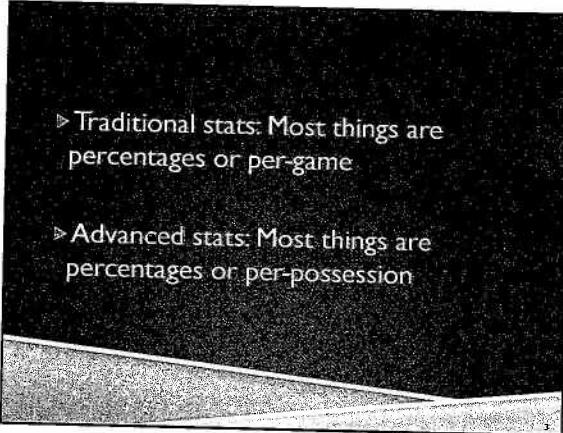

1. enjoy coaching your teams & cash your checks
2. “don’t cheat”
 - » compare fired for cheating vs fired for not winning enough
 - × duration
 - × “buy-out” money
 - × future employment opportunities
3. hire experienced staff
 - » you are going to be responsible for their mistakes
4. deal with “reliable” characters
5. Take pro-active steps to demonstrate promoting and monitoring compliance
 - » steps in NCAA “coach control” document
 - » be aware of and discuss NCAA “hot button” issues
 - » document and keep communication w/ compliance office
 - » document and keep other compliance paperwork
 - » implement agent policy in conjunction w/ compliance office
 - » audit monthly phone records (e.g., top 30 numbers called)

6. Be friendly with the Enforcement Staff... but don't think it really matters
 - » letters from compliance office to AAU coaches, third parties
 - » invite compliance office to speak to staff and team monthly
 - » attend NCAА regional rules compliance seminar
7. Get counsel at the start of any NCAА inquiry
 - » interview preparation
 - » interview presence
8. Get "compliance counsel" before any NCAА inquiry
 - » confidential sounding board
 - » assist implementing proactive steps
 - » monthly updates on compliance topics
 - » bi-annual staff compliance interviews
9. Address contract language to fit new Bylaw 19
10. Put deposits in the "bank of good will."

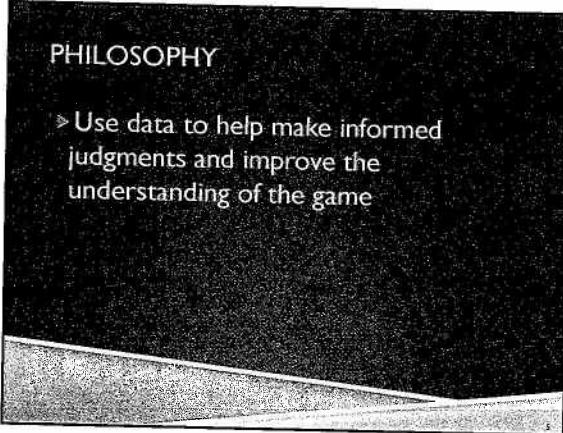

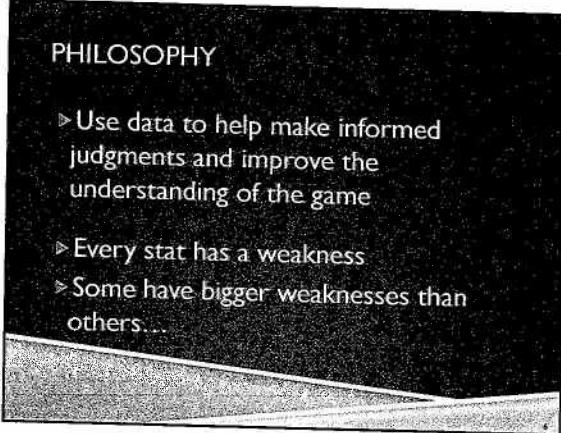

MY BACKGROUND

- The legend: "Stats geek"
- The reality: No formal training in statistics
- More like "data analyst"
- Nothing really advanced about the math!

PHILOSOPHY

- Use amazingly complex statistics to confuse the hell out of people in order to prove I'm smarter than everyone else

Jeremy Foley

- Jeremy Foley
 - Has eliminated jealousy on campus
 - Gets coaches focused on their sport's success
 - Importance of working relationship between coach and AD
 - How do you hire people, recruit people - "we don't have it all figured out"
 - Key to what I do is hiring coaches
 - "I like our coaches" - it's about coaches, people
 - Last and foremost - when you're going after someone - must fit what this place is all about
 - Fit into this culture - UF - unique - we hire a coach that doesn't fit that, it's not going to work
 - Every sport we have is important - You better respect what they do
 - Treating people the right way is a big thing around here
 - UF - people oriented - care about each other
 - Can't treat people right - can't be here
 - Fighting = counterproductive - ego's get involved
 - Integrity - integrity about intent
 - Work ethic - part of our fit, head coaches set tone in recruiting
 - No ego - can't last here
 - Not a coach here that did it by themselves
 - Can't play if the field is not painted
 - That is not always the case
 - It's not OK for any of us to be an asshole
 - If I don't have chemistry, we can't reach our potential
 - Can't be referencing crap that doesn't have to do with winning and losing
 - Analyze who you are
 - Likes to promote from within - yes, because they know the culture
 - Can't be afraid to fail - "It's not fatal"
 - But you also must learn from those things
 - Cut will tell you that variety is right
 - Don't discount your gut
 - Talk about expectations for the culture
 - Coaches help one another - want a coach that enhances that environment
 - Coaches party - enjoys watching the interaction
 - I'm amazed watching other athletic departments that are successful

Billy Donovan

- Create more opportunities for assistants just like players
- Most important – if somebody wants to leave, be excited – then find somebody better
- Promote and help our guys – get them ready
- Get people here that want to do everything
 - Expose them to what they have to deal with
- Process of hiring
 - Dynamics of our staff – fit at moment in time
 - There are head coaches that are afraid to hire the right guy
 - Ask – What is your job? #1 job – make the other guys in the office better
 - Best assistants – most selfless guys
